March of Dimes – Signature Chefs Auction

Amy Jones, OutSolve's Digital Marketing Manager, and her family were the Ambassador Family for the Signature Chefs Auction due to the birth of their premature son, Harris.

Mission of March of Dimes:

Prematurity is the #1 killer of babies in the United States. We are working to change that and help more moms have full-term pregnancies and healthy babies. From polio to prematurity the March of Dimes has focused on researching the problems that threaten our children and finding ways to prevent them.

Bonnella St. Ville Elementary – Christmas

St. Ville Elementary is a public school located in Harvey, LA. OutSolve donated school supplies and was able to go to the school one day to surprise the kids with pizza and Santa! The kids were thrilled when we showed up with Santa who brought all the kids Build-A-Bears as a Christmas present.

NOLA Tree Project

The OutSolve team partnered with The NOLA Tree Project to plant trees at the Sunken Gardens on Canal Boulevard in New Orleans, LA. The Sunken Gardens was once an open drainage ditch transformed into gardens in the 1930s. The gardens went through periods of abandonment followed by restoration efforts to keep the gardens maintained.

United through service to their community and the environment, over 40 OutSolve employees came together to plant Water Lilies, Spider Lilies, Cyprus Trees, and other Louisiana native plants. The hard work completed by the OutSolve staff will not only beautify the local landscape but will have other environmental advantages like

reducing the flowrate of stormwater, as well as, attracting birds and beneficial insects like butterflies and bees that pollinate plants.
